## FAA PMA Approved Stainless Steel Exhaust Stacks STC No. SA02809CH

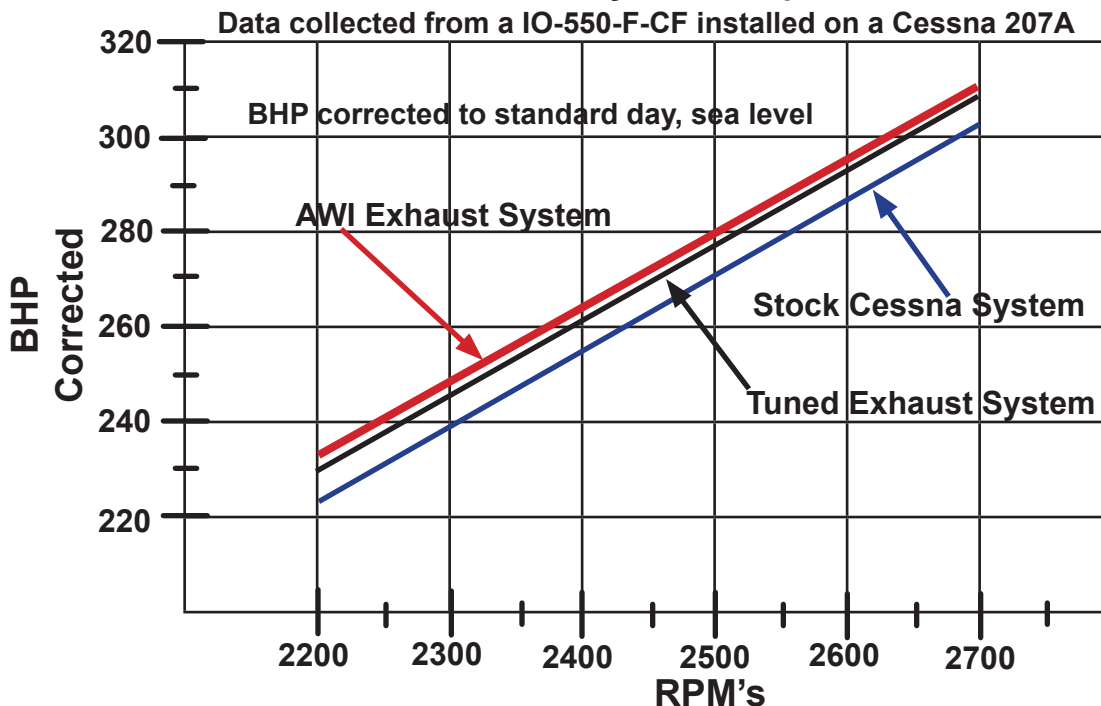

Aerospace Welding Minneapolis, Inc. (AWI) announces immediate availability of their new STC/PMA stainless steel Exhaust Stacks for most Cessna 206, 207 and 210 aircraft. This new header technology will increase performance over OEM up to 7 horsepower throughout all power settings and equalize back pressure across all cylinders.

### New and Advanced **Header** Technology

- AWI incorporates multiple slip-joints limiting the possibility of cracking, creating a more reliable exhaust stack
- Fabricated from high grade stainless steel tubing
- An increase of up to seven horsepower over OEM
- Equalized back pressure across the cylinders
- Expect to see lower operating temperatures

### Optimal Design Creates **More Horsepower** Exhaust System Comparison

Eligible on Cessna: **206**, P206, P206: A,B,C,D,E, U206, U206: A,B,C,D,E,F,G  
**207 & 207A**, **210**: B,C,D,E,F,G,H,J,K,L,M,N,R, 210-5 & 210-5A
