A Message To EASA Customers

In order to comply with EASA requirements, it is necessary for all customers to provide Hartzell Aviation MRO with the necessary Airworthiness Directives and Service Bulletins that apply to any component or accessory to be serviced/repaired/overhauled.

We have been informed that a number of EASA member authorities issue their own Airworthiness Directives or accept FAA Airworthiness Directives and issue additional directives.

Hartzell Aviation MRO shall determine from the work order or purchase order accompanying component or accessory what Airworthiness Directive(s) are required to be performed. If there are not customer specific requirements listed on your work order or purchase order, Hartzell Aviation MRO will comply with the applicable FAA Airworthiness Directives.

Please confirm that you understand and agree with the statement above by providing your signature below and fax to Hartzell Aviation MRO at (918) 835-6948 or email to sales@hartzellaviation.com. A copy of this document will remain on file with Hartzell Aviation MRO in accordance with EASA requirements.
